

25 SEP 1979

The Honorable R. G. Freeman III
Administrator
General Services Administration
Washington, D.C. 20405

Dear Mr. Freeman:

This Agency is in receipt of the Office of Management and Budget's (OMB's) Circular A-118 relative to the assessment of charges for Federal employee parking facilities. The purpose of this letter is to request the General Services Administration (GSA), in compliance with Paragraph 10, b(2) of the OMB circular, to determine the parking rates to be assessed at those facilities occupied by this Agency where parking is available, but for which no rate has been established under the Standard Level User Charge (SLUC) program.

The following is the location where a parking rate assessment should be determined:

The East, South and Central Buildings located at
2430 E Street, N.W., Washington, D.C.

Other Agency facilities where employee parking exists but is not under the SLUC program are the [redacted] and [redacted]

Virginia. It is our interpretation, however, that the employees at these facilities are exempted from parking charges in accordance with Paragraph 5(F), titled "Shared Facilities," of the OMB circular. Every effort will be made to encourage the establishment of carpools at these locations.

Your earliest advice on the determination of a parking rate for the 2430 E Street location will be most appreciated.

Sincerely,

James H. McDonald
Director of Logistics
